

Slate... but NOT as you know it!

TapcoSlate is the industry-leading composite roofing slate product from Tapco Roofing Products. For centuries slate roofing has been desired for its durability and aesthetic appeal, but this natural product does have drawbacks with its weight, pitch restrictions and brittleness. British Board of Agrément (BBA) certified TapcoSlate combines all the positive features of this beautiful, natural product, but adds practicality and the enhanced performance achieved by modern, state-of-the-art technology.

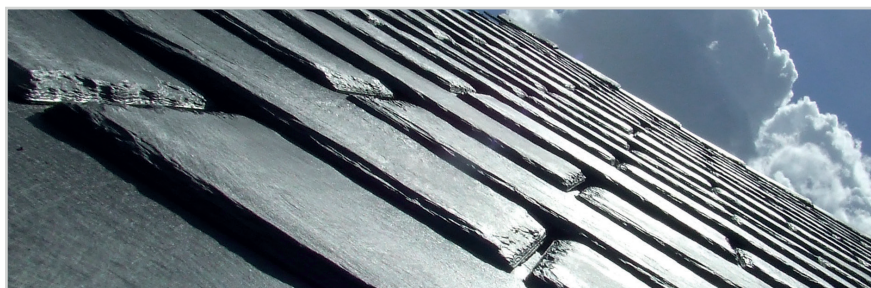

One of the benefits of using the latest polymer technology is that the slates can be fixed into place very quickly using a Paslode nailer and nails, both products complement each other to dramatically save on installation time and bring ease-of-use to your projects.

Tapco slate fitment tiles

Paslode Impulse® Nailers

Recommended for the professional installation of TapcoSlate Roofing Products.

IM45 GN Cordless Gas Coil Nailer

Product Code: 018608

Impulse® Packs - 0° plastic coil stainless steel A2 nail for IM45 GN Lithium

Stainless Steel Coil Nail Fuel Packs Product Code

35 x 2.5mm Ring

142207

BENEFITS

- **Optimised power (30 Joules) provides the exact force needed to drive the nails into substrates** - Prevents surface damage.
- **Unique delivery system is in a class of its own** - Decreased force needed to drive nails as opposed to hand nailing.
- **Lightweight and well-balanced nailer** - Easy to use and drastically reduces fatigue.
- **No-Mar Rubber tip and depth adjuster** - Enable an accurate fix and a perfect flush finish every time.
- **Optimised nose design and clear line of sight** - Aids accurate fixing, even in tight spaces.
- **Magazine can hold upto 125 nails** - Meaning less down time spent reloading your tool.
- **Plastic collation means no more wasted nails** - Using every nail in the coil.
- **35 x 2.5mm Stainless Steel Nail and IM45GN** - Provides platform to suit many roofing applications.

TapcoSlate Features & Benefits

- TapcoSlate is lightweight, weighing as little as 12kg/m², which is ideal for structures that cannot take heavier-weight roofing tiles or have long rafter lengths.
- It can be fixed to roof pitches as low as 12° on both felt & batten and fully-boarded roofing applications. TapcoSlate has been tested to EN 15601 for wind-driven rain penetration at 12° and above, meaning that your roof is watertight even at low pitches.
- It is fully fire tested to BS EN 13501-5 achieving BROOF(t4) classification.
- TapcoSlate has been designed for maximum performance, tested to TAS-110 withstanding uplift from wind velocities of up to 110mph.
- Achieves the highest UL 2218 Class 4 Impact Test rating, meaning the tiles are highly resistant to any physical, storm and hail impact.
- It can be easily cut & shaped with a standard utility knife, plastics saw, circular saw or power jigsaw.
- It has added UV inhibitors and tested to the industry-standard ASTM G 155-05a rating for roofing products enduring 2,000 hours of intense Xenon Arc exposure.
- Manufactured from 100% VIRGIN resins, so that we know EXACTLY how the tiles will perform over time. This also makes them 100% recyclable at end of life.
- TapcoSlate will not crack, split or break if dropped and can be walked upon without damage for installation and maintenance procedures.
- UKCA and CE conformity marking for UK and EU construction materials.
- 40-year, manufacturer's warranty, for your peace of mind.

TapcoSlate is ideal for new build, self-build, modular buildings, roof renovation, extensions, conservatories & garden rooms, and is available in 7 stocked colours & 1 exclusive colour mix to give your roof the multiple hues of a natural slate roof.

OTHER RECOMMENDATION

Paslode 360Xi Complete System

Tool Code: 019700

Galv-Plus Nail Fuel Packs

Product Code

51 x 2.8mm Ring

141075/141080

BENEFITS

- **Light and perfectly balanced, with a re-engineered grip and new battery position** - Ensures extra comfort and convenience with reduced fatigue, guaranteeing all-day productivity.
- **Quick release magazine** - Designed to eliminate nail jams.
- **Fast charging, high performing Lithium battery (200 shots in just 2 minutes)** - Delivers up to 13,000 shots per charge, equates to over 5 nail fuel packs.
- **Cold weather performance** - Allows user to work down to -15°C.
- **Easy to use rotating depth of drive adjuster** - Allows optimal embedment of nails for a clean, flush finish.

Safety

All Paslode devices comply with safety regulations and bear the EU & UKCA markings
